# ATLAS RANGE OF BULK SERVER CABINETS

## Designed for Heavy Loads

A range of cabinets capable  
of carrying loads in  
excess of 1000kg's

**Made in South Africa**  
Manufactured to International Standards  
Exported Globally

## ATLAS RANGE

# Bulk Server Cabinets designed for heavy loads

Width: 600 & 800 Depths: 1000, 1200  
Heights: 38u, 42u, 47u

With the advent of complex and bulkier servers CPS found it necessary to manufacture a range of cabinets capable of carrying loads in excess of 1000 kg's. Our designers created a professional looking cabinet that comes standard with: Knock down heavy duty

- 1 **Loading Capacity** 1200 kg's
- 2 **Materials** High-quality cold rolled steel
- 3 **Thickness** **Mounting profiles:**  
**Standard:** 2mm mild steel  
**Optional on request:** 2mm 304 stainless steel  
**Cabinet:** 1.6mm powder coated steel  
**Panels:** 1.2 powder coated steel
- 4 **Cooling Fan** Two/Four optional 120mm AC cooling fans
- 5 **Side panels** Removable
- 6 **Doors** Hexagonal mesh front door (option of glass) and Hexagonal mesh double rear doors
- 7 **Colors** **Black** RAL9004  
**White** RAL7035  
**Grey** RAL7032
- 8 **Surface Finish** Degreasing, Pickling, Phosphating, 7 Tank Dip System Powder Coating
- 9 Cable entry glands provided top & bottom
- 10 Castors and adjustable feet are standard

structure (able to pass through doorways).

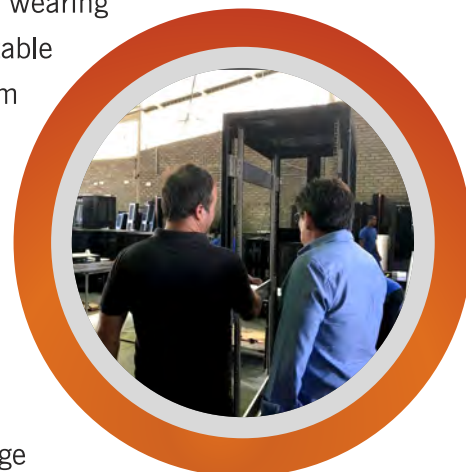

The units come with castors and adjustable feet as standard. This is a great feature that allows one person to easily roll units weighing in excess of a metric ton into place before being jacked up and levelled with the adjustable feet. The castors are specifically designed and manufactured for us and are of top quality. They include high precision ball bearings, heavy duty metal pressing & hard wearing rubber which is suitable for server room flooring.

### Server-Racks

Get the most out of your server room storage with our server rack and accessories. Our range offers a stable and durable platform for your valuable network and AV equipment.

We can help you:

- Neatly store and secure equipment
- Ensure easy access and monitoring
- Manage cooling and airflow issues
- Manage cable issues to reduce clutter
- Fit your equipment properly in its space with different size and mounting options
